GitHub: github.com/YashPorwal
Email: yashporwal494@gmail.com
Mobile: +91-7983642314

Skills

- **Languages**: Python, C/C++, JavaScript, SQL, Java
- **Frameworks**: Express, NodeJS, HTML and CSS
- **Tools/Platforms**: MS Excel, Power BI, Matplotlib, Seaborn, Sklearn, Git & GitHub, Pandas, Jupyter Notebook
- **Soft Skills**: Problem-Solving, Adaptability, Leadership , Teamwork

Projects

Machine-Learning-Project-Book-Rating-Prediction | GitHub Nov'25 – Dec'25

- Developed an end-to-end Machine Learning pipeline to predict and classify book ratings using regression, classification, clustering, and association rule mining techniques.
- Performed model comparison and performance visualization, identifying the best-performing classifier based on F1-Score and generalization capability.
- Conducted Exploratory Data Analysis (EDA) using histograms, boxplots, KDE plots, and correlation heatmaps to identify patterns and feature relationships.

  Tech: Python, Pandas, NumPy, Sklearn, Matplotlib, Seaborn.

BMS – Console based Bank Management System | GitHub June'25 – July'25

- Developed a Bank Management System in C++ to simulate core banking operations including account creation, secure login authentication, deposits, withdrawals, fund transfers, and transaction history tracking.
- Designed the system using Object-Oriented Programming (OOP) principles such as encapsulation, abstraction, and modular class structures.
- Implemented Data Structures & Algorithms (DSA) to ensure efficient data handling and optimized transaction processing.

  Tech: C++, OOPs, DSA, File Handling

Global-University-Analysis | GitHub Oct'25 – Dec'25

- Led a comprehensive University Ranking Analysis project to evaluate global ranking systems, compare performance metrics, and analyze dynamic trends across institutions and regions.
- Applied the MECE (Mutually Exclusive, Collectively Exhaustive) framework to systematically structure datasets and ensure complete, non-overlapping analytical coverage.
- Performed Exploratory Data Analysis (EDA) using SQL and Excel, including data cleaning, aggregation, correlation analysis, and trend evaluation.

  Tech: SQL, Excel, Power BI, Data Modeling, MECE Framework, Predictive Analytics

Training

Data Management Intern | Certificate June'24 - July'24

- Managed and maintained member databases with a strong focus on data accuracy, integrity, and confidentiality.
- Organized and structured organizational records to support internal reporting and operational efficiency.
- Conducted data verification and validation to ensure consistency and eliminate discrepancies.
- Streamlined data organization processes to improve accessibility and workflow efficiency.

  Tech stack: SQL, and Microsoft Excel

Certificates

- Privacy and Security in social media | NPTEL | **Link** Apr'25
- Computational Theory: Language Principle & Finite Automata Theory | Infosys | **Link** Aug'25
- Wireless Technologies for IoT | nasscom foundation | **Link** Dec'25
- Mastering in C basic to beyond | CSE Pathshala | **Link** Feb'24
- Code-A-Hunt | CodingBlocksLpu | **Link** Apr'24

Achievement

- Earned A Grade in the *Advanced Data Structures Skill Development Course* at Lovely Professional University.
- Awarded Man of the Series in the Inter-District T20 Cricket Tournament for outstanding all-round performance.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.53** Aug'23 - Present
- **ST. Francis Academy** Auraiya, Uttar Pradesh
  Intermediate; **Percentage: 70.00** Apr'19 – Apr'20
- **ST. Francis Academy** Auraiya, Uttar Pradesh
  Matriculation; **Percentage: 71.00** Apr'21 – Apr'22
